# SAP MM T-Code & OBYC Cheat Sheet

theTechMentor · SAP S/4HANA · youronementor.com — free study resource

## Master data

| | |
|---|---|
| **MM01 / MM02 / MM03** | Create / change / display material |
| **BP** | Business Partner (supplier & customer) in S/4HANA |
| **ME11 / ME12 / ME13** | Purchasing info record |
| **ME01** | Maintain source list |
| **MEQ1** | Maintain quota arrangement |

## Purchasing

| | |
|---|---|
| **ME51N / ME52N / ME53N** | Purchase requisition create / change / display |
| **ME54N** | Release purchase requisition |
| **ME41 / ME47 / ME49** | RFQ / maintain quotation / price comparison |
| **ME21N / ME22N / ME23N** | Purchase order create / change / display |
| **ME29N** | Release purchase order |
| **ME31K / ME31L** | Contract / scheduling agreement |
| **ME59N** | Automatic PO creation from requisitions |
| **ME2N / ME2L / ME2M** | POs by number / supplier / material |

## Inventory management

| | |
|---|---|
| **MIGO** | Goods receipt, goods issue, transfer posting |
| **MMBE** | Stock overview |
| **MB52** | Warehouse stocks of material |
| **MB5B** | Stock on posting date |
| **MB51** | Material document list |
| **MI01 / MI04 / MI07** | Physical inventory: create doc / enter count / post differences |
| **MMPV** | Close period / open next MM period |

## Invoice verification & valuation

| | |
|---|---|
| **MIRO / MIR4** | Enter / display supplier invoice |
| **MRBR** | Release blocked invoices |
| **MRRL** | Evaluated receipt settlement (ERS) |
| **MRKO** | Consignment & pipeline settlement |
| **MR11** | GR/IR clearing account maintenance |
| **MR21** | Price change |

## Planning

| | |
|---|---|
| **MD01N** | MRP Live |
| **MD04** | Stock/requirements list |

## OBYC — automatic account determination: transaction keys

| Key | What it posts |
|---|---|
| **BSX** | Inventory posting (stock account) for valuated stock |
| **WRX** | GR/IR clearing account at goods receipt and invoice receipt for POs |
| **GBB** | Offsetting entry for inventory postings (consumption, scrapping, inventory differences …) — split by account modifier |
| **PRD** | Price differences (standard price materials, invoice ≠ PO price) |
| **KDM** | Exchange rate differences between GR and invoice |
| **AUM** | Expense/revenue from stock transfer between valuation areas with different prices |
| **BSV** | Change in stock account (subcontracting) |
| **FR1 / FR3** | Freight clearing / customs clearing for planned delivery costs |
| **KON** | Consignment and pipeline liabilities |
| **UMB** | Revenue/expense from revaluation (e.g. price change in prior period) |
| **EIN / EKG** | Purchase account / purchase offsetting account (purchase account management) |

## GBB account modifiers

| Modifier | Used for |
|---|---|
| **VBR** | Consumption for internal goods issue (e.g. to cost center, mvt 201) |
| **VAX / VAY** | Goods issue for sales order without / with account assignment |
| **VKA** | Consumption for sales-order account assignment |
| **VNG** | Scrapping (mvt 551) |
| **INV** | Expense/revenue from physical inventory differences |
| **BSA** | Initial stock entry (mvt 561) |
| **ZOB** | Goods receipt without purchase order (mvt 501) |
| **AUF** | Goods receipt for production order |
| **VBO** | Consumption of stock provided to supplier (subcontracting) |
| **VQP** | Sample withdrawal from quality inspection |

## Configuration transactions

| | |
|---|---|
| **OX10 / OX09 / OX08** | Define plant / storage location / purchasing organisation |
| **OME4** | Purchasing groups |
| **OMS2** | Material types |
| **OMSK** | Valuation classes & account category reference |
| **OMWD** | Valuation grouping code per valuation area |
| **OMJJ** | Movement types |
| **OBYC** | Automatic postings — G/L account assignment |
| **OMWB** | Simulate automatic account determination |
